

EYAD ABDELHAMID FATHI ABDELHAMID TAMIM

UI/UX DESIGNER & UI DEVELOPER

Email: eyadtamiim@gmail.com Phone: +20 1060950450 Location: Egypt

Portfolio: eyadtamiim.github.io/portfolio/# Behance: behance.net/eyadtamiim/projects

EDUCATION

Bachelor of Science in Aviation Information Systems

Graduation: 2026

Faculty of Computers and Information, Zagazig National University

GPA: 3.1 / 4.0

CORE SKILLS

UI/UX Design:	User Research, Wireframing, High-Fidelity Prototyping, Design Systems, Information Architecture, User Journey Mapping, Responsive Web & Mobile Design, Usability Testing, Accessibility (WCAG).
Design Tools:	Figma, Adobe XD, Adobe Photoshop, Canva.
Frontend Knowledge:	HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript.
Methodologies:	Design Thinking, Agile/Scrum Collaboration, Problem-Solving, Cross-Functional Teamwork, Attention to Detail.

PRACTICAL TRAINING & EXPERIENCE

UI/UX Specialization Trainee — Digital Arts & Web Design

Jun 2025 – Dec 2025

Digital Egypt Pioneers Initiative (DEPI) | Ministry of Communications and Information Technology (MCIT)

- Completed an intensive UI/UX specialization track in Digital Arts & Web Design, sponsored by Egypt's Ministry of Communications and Information Technology (MCIT).
- Applied user-centered design principles to conduct user research, create wireframes, and build interactive prototypes for responsive digital products.
- Collaborated with cross-functional teams to deliver practical digital solutions using industry-standard tools including Figma and Adobe Photoshop.
- Developed expertise in UX methodologies, design systems, and visual UI layouts across real-world project workflows.

UI/UX Designer (Intensive Internship - 145 Hours)

Aug 2025 – Sep 2025

Information Technology Institute (ITI)

- Completed an intensive 145-hour practical training covering the complete UI/UX design lifecycle from initial user research to high-fidelity prototyping.
- Conducted user research, defined target personas, mapped user journeys, and structured information architecture for responsive web and mobile interfaces.
- Created reusable, scalable UI component libraries and design systems in Figma to ensure design consistency and maintainability across platforms.
- Executed iterative usability testing and design evaluations to optimize micro-interactions, layout responsiveness, and user engagement.

FEATURED PROJECTS

TRAVORA – Real-Time Flight & Baggage Tracking Platform

Lead UI/UX Designer

Graduation Project (2026) | Link : <https://www.behance.net/gallery/255275327/Travora-Smart-Baggage-Logistics-Flight-Intelligence>

- Designed the full end-to-end user interface and experience for a real-time flight tracking and airport baggage navigation system.
- Formulated intuitive dashboard layouts and clear data visualizations to simplify complex tracking information for passengers.
- Developed interactive high-fidelity wireframes and mobile prototypes in Figma, prioritizing ease of navigation and accessibility.
- Established a unified visual style guide, color palette, and typography hierarchy implemented across all application views.

KYX Booking Pitch App

Lead UI/UX Designer & UI Developer

- Designed an intuitive sports venue booking experience, streamlining user registration, field availability discovery, and reservation management.
- Mapped end-to-end user flows and built high-fidelity interactive mobile prototypes with a modern, high-contrast athletic interface.
- Implemented clean front-end components ensuring high responsiveness and alignment with interactive wireframes.

PUMA E-Commerce Redesign App

UI/UX Designer & UI Developer

Link : <https://www.behance.net/gallery/235759161/PUMA-UI-case-study>

- Redesigned core mobile e-commerce screens to improve product discovery, filtering, and seamless checkout flows.
- Created responsive wireframes, visual design layouts, and scalable component libraries aligned with global brand guidelines.
- Developed front-end code snippets and responsive styling using modern web standards.
